

## List of publications in high-impact journals

Deliverable D1.4 is related to the peer-reviewed publications in high impact journals (in the top 10% impact ranked journals) in the field of multiscale modelling and medical informatics in biomedical engineering, of the coordinating entity (UKG) during the three years preceding the start date of the project, i.e. in the period from 30 September 2017 to 30 September 2020.

In the Continuous reporting tool on the Funding and tenders portal we have enlisted the most important publications related to the research field of the project, produced by the main researchers that will be part of the SGABU research team at the University of Kragujevac.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 952603
